

# Adobe® Dreamweaver® CS3: Level 2

## Course Specifications

Course number: 084205

Software: Adobe® Dreamweaver® CS3

Course length: 1.0 day(s)

Certification: Adobe® Certified Expert (ACE) Program

## Course Description

You have created basic web pages. You may now need to develop professional-looking websites. In this course, you will use the advanced features of Adobe® Dreamweaver® CS3 to design and develop professional-looking websites.

**Course Objective:** You will develop professional-looking web pages using the Adobe® Dreamweaver® CS3 application.

**Target Student:** This course is designed for students who not only use Adobe Dreamweaver CS3 to design and develop webpages in a WYSIWYG environment, but also have the ability to understand and work with the architecture and coding of web pages. Students are those in small companies or departments within large companies who use web technologies for electronic communication. Some examples of target companies are advertising agencies, marketing agencies, and groups involved in intranet and extranet production.

**Prerequisites:** Before taking this course, students should have completed the Adobe® Dreamweaver® CS3: Level 1 course or possess equivalent knowledge.

**Delivery Method:** Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

## Performance-Based Objectives

Upon successful completion of this course, students will be able to:

- work in Code view using the coding features of Dreamweaver.
- format content using style sheets.
- create an effective user-navigation interface.
- work with AP elements to enhance the layout and positioning of elements on a web page.
- automate tasks.
- create forms.
- author a web page using XML-based data.
